

Averages from a table

From the below table which shows the shoe sizes of some students

- A) What is the mode ?
- B) What is the median ?
- C. What is the range?
- D) What is the mean ?

Shoe Size	Frequency
3	3
4	4
5	9
6	6
7	3
8	3
9	2

A. Mode = 9

B. Median = 6

C. Range = $9 - 2 = 7$

D. Mean = $30 \div 7 = 4.29$ (2 d.p)
