

# Angles in Parallel Lines (H & F)

A collection of 9-1 Maths GCSE Sample and Specimen questions from AQA, OCR, Pearson-Edexcel and WJEC Eduqas.

Name:	Mel@JustMaths
Total Marks:	Worked Solutions

1. AE, DBG and CF are parallel.

DA = DB = DC.

Angle EAB = angle BCF =  $38^\circ$

Work out the size of the angle marked x.

You must show your working.

$\hat{A}BD = \hat{C}BD = 38^\circ$  (alternate angles are equal)

$\hat{D}AB = \hat{D}CB = 38^\circ$  (2 angles in an isosceles triangle are equal.)

$\hat{B}DA = \hat{B}DC = 104^\circ$  (angles in a triangle add up to  $180^\circ$ )

$x \Rightarrow 152^\circ$  (angles around a point add to  $360^\circ$ )

$x = 152$

..... $^\circ$  [3]

2. ABC is a triangle with AB = AC

BA is parallel to CD.

Show that angle x =  $30^\circ$

Given AB = AC the triangle is isosceles so  $\hat{A}BC = \hat{A}CB$

$x = \hat{C}AB$  (alternate angles are equal)

①  $\hat{C}PB = 90^\circ$

②  $\hat{B}CP = 75^\circ$  (angles in a triangle =  $180^\circ$ )

③  $\hat{A}BP = 75 - 15 = 60$  (2 angles in an isosceles triangle are equal.)

④  $x \Rightarrow \frac{75}{150} + \frac{180}{30} \quad x = 30$  angles in a triangle =  $180^\circ$

OED.

## CREDITS AND NOTES

Question	Awarding Body
1	Pearson Edexcel
2	AQA

### Notes:

These questions have been retyped from the original sample/specimen assessment materials and whilst every effort has been made to ensure there are no errors, any that do appear are mine and not the exam board's (similarly any errors I have corrected from the originals are also my corrections and not theirs!).

Please also note that the layout in terms of fonts, answer lines and space given to each question does not reflect the actual papers to save space.

These questions have been collated by me as the basis for a GCSE working party set up by the GLOW maths hub - if you want to get involved please get in touch. The objective is to provide support to fellow teachers and to give you a flavour of how different topics "could" be examined. They should not be used to form a decision as to which board to use. There is no guarantee that a topic will or won't appear in the "live" papers from a specific exam board or that examination of a topic will be as shown in these questions.
