|--------------|------------------|
| Name:        | Nikki @mathszest |
| Total Marks: |                  |

1. Square  $OABC$  is drawn on a centimetre grid.  
 $O$  is  $(0, 0)$   $A$  is  $(2, 0)$   $B$  is  $(2, 2)$   $C$  is  $(0, 2)$

$OABC$  is reflected in the line  $y = x$

Circle the number of invariant points on the perimeter of the square.

0

1

2

4

[1]

2. Triangle A is drawn on the coordinate grid.

Zara and Sam each transform triangle A onto triangle B.

- Zara uses a rotation of  $90^\circ$  clockwise about the origin followed by a reflection in  $x = 3$ .
- Sam uses a reflection in  $y = -x$  followed by a transformation T.

a) Draw and label triangle B.

[3]

b) Describe fully transformation T.

Translation by vector  $\begin{pmatrix} 6 \\ 0 \end{pmatrix}$

[3]

3. A triangle has vertices at A (2, 1), B (3, 4) and C (6, 1)  
 The triangle is reflected.  
 Points A and C do not move.  
 Circle the equation of the line of reflection.

$y = x$

$x = 2$

$y = 1$

$x = 4$

[1]

A (2, 1)

C (6, 1)

$y = 1$

## **CREDITS AND NOTES**

| <b>Question</b> | <b>Awarding Body</b> |
|-----------------|----------------------|
| 1               | AQA                  |
| 2               | OCR                  |
| 3               | AQA                  |

### **Notes:**

These questions have been retyped from the original sample/specimen assessment materials and whilst every effort has been made to ensure there are no errors, any that do appear are mine and not the exam board s (similarly any errors I have corrected from the originals are also my corrections and not theirs!).

Please also note that the layout in terms of fonts, answer lines and space given to each question does not reflect the actual papers to save space.

These questions have been collated by me as the basis for a GCSE working party set up by the GLOW maths hub - if you want to get involved please get in touch. The objective is to provide support to fellow teachers and to give you a flavour of how different topics "could" be examined. They should not be used to form a decision as to which board to use. There is no guarantee that a topic will or won't appear in the "live" papers from a specific exam board or that examination of a topic will be as shown in these questions.
