

Estimate 19.1×23

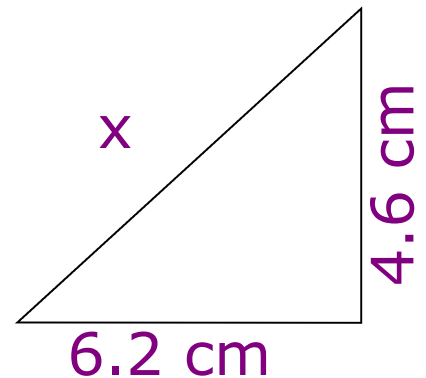

Solve $3x - 3 = 21$

Calculate x

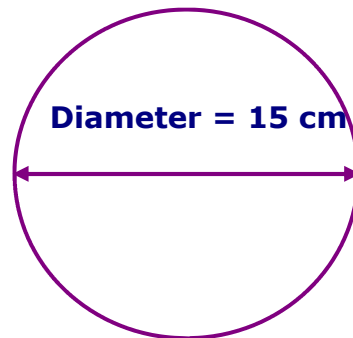

15% of £40

$$\frac{5}{8} - \frac{2}{8}$$

Work out the circumference

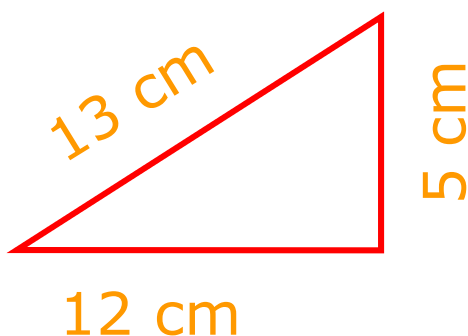

Simplify $m^6 \div m^4$

$$£1 = \$1.25$$

Convert \$ 120 to £

What is the area?

Calculate

$$\frac{10^2 - 41}{8.5 - 1.45}$$

Estimate 19.1×23
