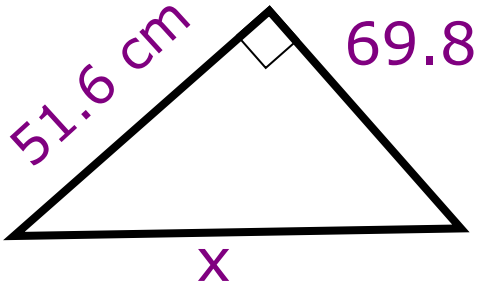
JustMaths

Estimate 19.9×5.42

Solve $4x + 1 = 33$

Calculate x

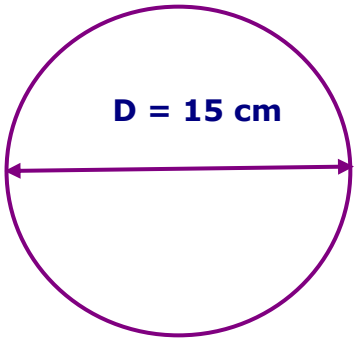


55% of £120

Work out the area

$3 - \frac{2}{3}$

$\frac{}{4}$

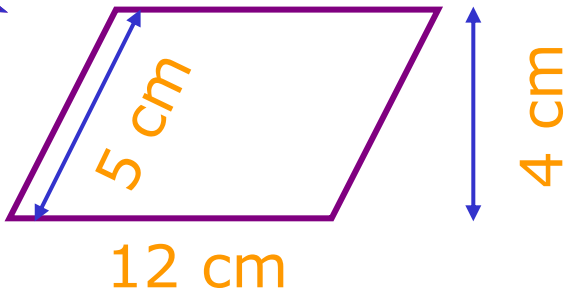


Simplify $2a^2b \times 3b^2$

£1 is $0.58

Convert $58 to £

What is the area?



Calculate

$$\frac{14^2 + 41}{2.8 \times 1.71}$$
