

Homework 1

Name: _____

Emma organises a geek club.

This year 87 people have paid the club membership fee.

The club membership fee is £9.50

Emma thinks it is going to cost £920 to run the club next year.

Emma wants to keep the fee the same next year.

She thinks she needs more than 87 people to pay the fee next year.

How many more people does Emma need to pay the fee next year?
