

Place in size order

0.61 0.1 0.16 0.106

Calculate  $42 \div 3$

What is the 20th odd number?

Here are some numbers.

9.6 12.6 15.4 7.6 12.4 17.4

Write the numbers in pairs so that the sum of the numbers in each pair is the same.

How many different numbers can be made with the digits 1, 2 and 3?

Work out  $4 \times 3.2$

List the first 3 square numbers

Work out

A)  $10^3$

B)  $\sqrt{16}$

Calculate

$4 \times -2$

$21234 + 3643$

Place in size order
